

PFF5-1820

MINI R60/61 4X4 LOWER ENGINE MOUNT BUSH

## **INSTALLATION GUIDE**

## **Product description:**

This polyurethane bush comes with an insert that limits the flexibility of the bush, this can be fitted to further reduce engine movement.

## Contents (parts per pack):

2 x A part polyurethane bush 2x B part polyurethane bush

1 x Stainless steel sleeve

1 x Grease

Please read the complete fitting instructions and check package components before fitment. These fitting instructions are to be used as a guide and in conjunction with workshop manual. It is recommended that:

- all work to be carried out by a licensed technician;
- all safety precautions adhered to;
- wheel alignment to be checked and adjusted as required after any suspension work.

All fasteners must be tensioned to manufacturer's torque settings.

## **Fitting Instructions:**

- Remove original bush from the arm, clean any dirt and corrosion from bore in arm.
- 2. Push the A bush into the bracket from either side. Aligning the voids in the bush with bracket (marked with arm on top face to run along the arm direction).
- 3. Apply some of the supplied grease to the bore of the bush and insert the sleeve.
- Refit the arm to the car using the original bolt and washer, tension all hardware to manufacturers recommended torque settings.
- 5. To limit flexibility of the bush, add the supplied polyurethane insert (B) into the voids of the bush.
